We express our deepest condolences and sympathy to Srinivas Kuchibotla Family for this great loss in Kansas City Shooting recently. We wish a speedy recovery to Mr. Alok Reddy who was injured at same incident. Our heartfelt thanks and special appreciation goes to the Hero Ian Grillot, who saved Alok's life.

There is a lot of discussion going on about these frequent attacks on Indian Americans.

On analyzing the criminal history in USA, unfortunately there are at least 15 mass shootings occurred in the last couple of years. For example, in June 2016, Pulse night club shooting in Orlando killed 50 people and injured 53. In December 2012, at Sandy Hook Elementary School, Connecticut incident 20 children and 6 adults were killed. Several Indian Americans lost their lives at Gas stations while working in night shifts. The main reason for all this massacre's is abundant availability of weaponry in open markets, buying guns became so cheap and easy.

On behalf of Indian American Friendship Council, we sent letters to the US President Mr. Donald Trump, Indian American Congressmembers and Senators – Mrs. Kamala Harris, Mrs. Pramila Jaypal, Mr. Raja Krishnamoorthi, Mr. Ro Khanna and Dr. Ami Bera to review the current gun licensing system and come up with a law that allows to access guns only after thorough background checks. We also noticed several racial profiling

incidents happening very frequently. Hence, we requested US politicians to discuss this issue in US Congress and Senate and create an “**Anti-Racial Profiling Commission**” as a separate entity. This commission’s job should be to review all complaints and take necessary legal action immediately to deter others not to repeat the same.

Even though there is some built in hatred, anger, frustration on Indian Americans by few ill-informed, prejudices, there is so much positiveness in American Society. The same American system gave so much prominent to several Indian Americans including Satya Nadella (Microsoft), Sundar Pichai (Google), Indra Nooyi (Pepsico) etc., in corporate sectors. The Prime example is Ian’s courageous effort to save another Indian American life.

In my opinion as Indian Americans, we need to follow certain guidelines to lead a peaceful life in this Great country, America.

### Do’s & Don’t’s in America:

#### 1. **Know your neighbors:**

- ❖ At least their names, invite them to some Indian community events to show our rich cultural heritage.
- ❖ Do not cause any inconvenience by playing loud music.
- ❖ Do not irritate them by mowing lawns too early in the morning.
- ❖ Car Parking should not block your neighbor’s entrances.

#### 2. **Respect American Flag:**

#### 3. **Dress code:** Follow appropriate dress code in public places.

#### 4. **Do not irritate others:** There are several incidents where organizers were kicked out of the hotels, public places when too much inconvenience was caused to other guests. Example, mass gatherings, making too much noise with slogans, banners, rallies when receiving Indian politicians, movie celebrities in airports, movie theaters, on roads etc.,

5. **Awareness of Cultural differences:** Educate your visiting parents or guests from India about US culture and traditions in advance. For example,

- ❖ Do not stare or finger point Americans especially when they are in swim suits & engaged in private moments.
- ❖ Do not converse in a different language in front of them.
- ❖ Do not make fun or laugh at them.
- ❖ Do not touch, hug, kiss or offer any food items to American kids.

- ❖ Always go through legal system if you feel something is detrimental to your fundamental rights.
- ❖ If you are in a situation where you cannot protect yourself, do not resist or argue.

#### **14. Civic Responsibility:**

- ❖ As we decided to live and earn our bread and butter in this country, we need to be part of the society.

- ❖ We need to know our elected officials and be prepared to volunteer at schools, hospitals, parks, city government activities etc.,
