The fundraising banquet that was hosted on August 3rd at one of the prominent Indian American community leaders, Dr. Prasad Thotakura's residence in Colleyville, TX was very successful.

In his welcoming remarks, Dr. Prasad Thotakura said 'that the stage is set for Raja Krishnamoorthi, 42 to become the next US Congress member in November 8th general elections. I'm sure Raja will be one of the best US Congress members in the history because he knows the pain and suffering of the common people. As a matter of fact, Raja has spent most of his childhood living on public assistance and on food stamps. Now, it is very heartening to note that Raja has the distinction of being endorsed by US President Barak Obama besides more than 100 leading Democratic leaders. Raja was introduced as one of the emerging Democratic leaders at the recent Democratic National Convention that was held in Philadelphia. When Raja gets selected, he will be the fourth US Congress member of the Indian origin after Dalip Singh Saund, (1957-1963), Bobby Jindal (2004-2007) and Dr. Ami Bera (currently serving only Indian American US Congress member).'

MVL Prasad, one of the Host Committee Members introducing Raja Krishnamoorthi said that Raja was emigrated from New Delhi, India to Buffalo, New York with his parents when he was just three months old. He is the fine role model of the Indian American community who gives highest priority to education. Raja earned his bachelor's degree with summa cum laude in mechanical engineering from Princeton University and graduated with honors from Harvard Law School. Following law school, Raja clerked for a federal judge in Chicago, served as issues director for Barack Obama's successful United States Senate campaign in 2004. Raja currently serves as President of Sivananthan Labs and Episolar, Inc., a small businesses that sell products in the national security and renewable energy industries.

Raja Krishnamoorthi while addressing the gathering said that he is very thankful to his parents and very proud of his Indian heritage that instilled principles, discipline, morale, ethics, respect, traditions and values in him. Raja stated that there is a lot of opportunity and room for others to serve the country by entering int

mainstream US Politics. He noted that Indian American community is doing exceptionally well in the areas like Education, Entrepreneurship, Medicine, Technology, Engineering, Spirituality but is lacking participation in Political arena. Raja stated that while there are more than 3 million Indian Americans in the USA, now there is only Indian American serving as US Congress member and he will increase that to 100% when he gets elected as US Congress member this year. Raja sincerely thanked for all contributors in general and the host team Dr. Prasad Thotakura, Paul Pandian, Sridhar Tummala, MVL Prasad and CC Theophine for organizing a successful fundraiser in Dallas to support him.

CC Theophine, one of the Host Committee Members said Raja was able to raise a whopping \$1.6 million more than his opponents and is considered to be a sure shot winner.
